20th YEAR ANNALS

## THE GEORGE COBLEY CO. General Merchants Frank

### Hat Pins made out of Real Roses

We have just received 25 dozen new winter caps finished in the latest shapes of catchy tweed patterns, navy blue and black. These caps are fitted with the finest quality of plucked fur bands. Prices from \$1.75 to \$2.00. Come in and see this excellent selection of winter caps. Those left of the travellers samples of fur stoles, consisting of ladies and children's stoles of different designs, are being offered at the same attractive values. There are two of the stoles alike. You cannot afford to miss the opportunity.

### Real Rose Hat Pins

It does not seem possible, yet it is true, that these Hat Pins are made out of live roses, and changed into metal by a secret process. The discovery is without doubt one of the most of the ancient Egyptians. They are the most beautiful of all Hat Pins. No two alike. Made in fashion to conform to the prevailing fashion in millinery. Six sizes at the following prices:  
\$1.50, \$2.00, \$2.50, \$3.00, \$3.75, \$4.50.  
Everybody is talking about them. Don't fail to come in and see them. These are the genuine DELAMOTHE Real Rose Hat Pins.

## McDONALD IS IN THE LEAD

LIBERAL CANDIDATE FOR HERBERT  
BATES TO A PHAZLE.

## BARREL TO BE OPENED

It is reported that Money Will be opened to  
to be kept by the Government in  
the future in the hope of defeating  
Government campaign talk.

The political race is all but over and the candidates are now coming down the stretch, as our disreputable collector, Bob Edwards says, well sent for election with McDonald away out in the lead and running a strong and honest campaign back in the rank. A careful estimate of the result indicates that McDonald will receive the second largest majority of any candidate in Alberta and that will be second only to Frank Oliver himself.

It is currently reported that the conservatives of organization together with the C. P. E. intends pouring money into every polling place on election day in the hope of stemming the tide and defeating the government. Whether there is any truth in the report election day alone will tell but certain it is that the warning has gone out and that the polls will be closely watched that the design will be difficult of accomplishment as in every poll, at the first sign of the improper use of money, a warrant will be issued and there will be trouble for would be voters.

Because of the length of the campaign and the fact that the conservatives of organization together with the C. P. E. intends pouring money into every polling place on election day in the hope of stemming the tide and defeating the government. Whether there is any truth in the report election day alone will tell but certain it is that the warning has gone out and that the polls will be closely watched that the design will be difficult of accomplishment as in every poll, at the first sign of the improper use of money, a warrant will be issued and there will be trouble for would be voters.

The "cemetery scandal" as the conservatives for political purposes, characterized the disreputable controversy over the Blairmore burial ground, has proven another rooster which will prove damaging to the hopes of John Heron who emptied his pocketbook to open up the Blairmore burial ground to the Blairmore party.

The poll in Frank will be held in the room in the Goyette block that has been used by the liberal committee as headquarters. The deputy returning officer will be Alex Goyette and the poll clerk, H. P. Clearblue. The poll opens at 9 o'clock in the morning and closes at 5 o'clock in the afternoon. At Blairmore the poll will be held in the old school house. Carl W. A. Beck will be the deputy returning officer. Coleman will have two polls, one in the Institutional club room and the other in the "Eagles" hall. The deputy returning officers there are K. Diney and W. Sandridge. At Little the poll will be held in town hall with R. Evans as deputy returning officer. Belle

## LITTLE DEEDS GRAVE YARD

BLAIRMORE CEMETERY MATTER  
IS STILL IN A PHAZLE.

## GIVES LARGE TRACT

Country City for Area Here, to Government, which will be a transfer to Blairmore. This is another alleged Government scandal.

The difficulty over the title to the Blairmore cemetery which during the present political campaign has been characterized as the Blairmore cemetery scandal by the conservatives in an effort to make the dispute a vehicle to gain votes, has been settled and settled to the utmost satisfaction of every resident of the Pass. During the week Joseph Little, owner of the homestead on which the cemetery is located, transferred back to the government, not only the four acres over which the dispute has existed, but three in fifty acres in addition for good measure. The documents conveying the land back to the government are in Ottawa and the government will now pass title to the ground to the village of Blairmore.

The settlement was effected through the instrumentality of Minister of the Interior Frank Oliver to whose attention the matter was called while the minister was in Montreal recently. The ground had passed from the control of the department and through the fact that one had the people of Blairmore themselves but Mr. Oliver promised to use his good office to procure a settlement with the result here given.

At the opening of the present campaign, the supporters of John Heron, the conservative candidate, through the medium of Mr. Heron's own paper, the Coleman Miner, sought to make the controversy over the cemetery the a political issue and charged that graft in the government was responsible for the title having been passed to Little.

The Frank Paper at that time declared that there was no politics of any kind involved, announced that the matter would be taken to Minister of the Interior Oliver and ventured the prediction that if it was not within Mr. Oliver's power, he would find a means of procuring a satisfactory settlement. The Frank Paper is of the opinion that this outcome justifies the position it took at that time as well as the language it applied to the case.

The very satisfactory settlement of the deplorable case through the intervention of Mr. Oliver, furnishes another evidence of the sincere interest felt by Mr. Oliver in the welfare of every community.

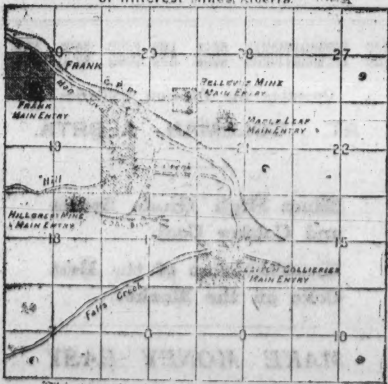

Influenced by any other motives, it is hard not to believe it would be taken on hand in it even to have gained votes for his party.

True to the policy of the conservative party which has always been to discourage competition with the C. P. E. John Heron votes is determined against granting a charter to Jim Hill to build the V. V. & E. railroad to open up the interior of southern British Columbia. In contradistinction to that of that thing, the liberal party has been a railroad building party. The liberal government has given Canada two transcontinental lines and hundreds of miles of branch lines and is now creating an entirely new trade route to Europe in the building of the Montreal to Vancouver line. A vote for A. B. McDonald means a vote for more railroad building, the thing which more than anything else, the west needs for its development. If Mr. McDonald is elected, you may depend upon it, government assistance for the building of a north and south line that will open the Montana coal market to the mines of this district will be forthcoming in short order. Therefore if you would vote in your own best interest, you should vote your ballot for A. B. McDonald.

## HILLCREST

THE PITTSBURG OF CANADA.

Sketch showing exact location of Township of Hillcrest Mines, Alberta.

This township is in the heart of the coal district.

The town of Hillcrest is situated within less than one mile of the main entrance of the Frank mine, within three quarters of a mile of the Pellet's mine, within three quarters of a mile of the Hillcrest mine, within three quarters of a mile of the Leitch Collieries and within one half mile of the Hillcrest mine.

### The Townsite Will be Open Shortly.

An hotel costing ten thousand dollars has just been finished and the furniture is being installed. There are already forty-seven buildings in the town. The Hillcrest Mine payroll averages between \$15,000 and \$20,000 per month while the combined payroll of the mines surrounding the town runs to about \$100,000 per month, all from mines within one mile of town. Prices of lots will be announced shortly. Hillcrest coal has been on the market for two years and has by all tests proven itself the highest grade steam coal in Canada. It burns a whitish and is absolutely free from shakers. For further particulars apply to

C. P. Hill, Hillcrest Mines, Alberta.

### IN DESPERATE STRAITS.

The political campaign has progressed to the point at which it becomes apparent in which direction the tide of sentiment is setting and as all the outward evidences point to an overwhelming victory for Sir Wilfrid Laurier and his government and the success of A. B. McDonald in this constituency by a majority so gathering that even his strongest supporters are scarcely able to believe their eyes and ears, the supporters of the conservative party and of John Heron in particular are becoming frenzied and are resorting to tactics so disgraceful and degrading that even their own friends have become disgusted. The campaign of slander and misrepresentation which was begun by the casting of insinuations, has steadily degenerated until at last, in their desperation the advocates of sending a man to Ottawa to pose and draw \$10,000 for absolutely no service to his constituents, have thrown caution and all semblance of decency to the winds and are charging anything and everything against the liberal candidate and his supporters which they imagine may catch a vote.

An instance of the desperate straits in which these people find themselves and the utterly insane lengths to which they are willing to go is supplied by the Coleman Miner, Mr. Heron's own paper, in its last issue. The Miner devoted an entire issue to scandalous and slanderous utterances, so grossly false as not to require reference to them in detail for they are on the face of them so infamously untrue that any utterance or who might read them would not believe them. The Frank Paper does not believe that any sane and patriotic citizen who has any care for the wellbeing of his country will be misled by them.

What a contrast between this sort of thing and the manner in which the conservative candidate has been treated at the hands of Mr. McDonald's supporters. As far as this paper is aware, not a charge of anything bordering on slander if it were not true has been uttered by a liberal speaker or newspaper that has not been directly provoked by Mr. Heron himself. The charges of this character which have been made began with the reference to Mr. Heron's connection with naturalizing Chinese to vote for him, or of being naturalized by his friends to vote for him. This was provoked by Mr. Heron's paper holding him up as the friend of labor in that he was the advocate of excluding Asiatics. And the facts in relation to his countenancing the naturalization of Chinese to vote for him was cited to show his insincerity on that question which is most effectively did.

Another charge was that he had countenanced the raising of the ore cry against Mr. McDonald. Because Mr. McDonald was a Catholic. That Mr. Heron did that there is the best reason to believe notwithstanding his denial. It is possible that denial might be taken as truthful, coming from a man occupying so high a position, were it not for the fact that he proved himself capable of uttering direct falsehood when he spoke to a Frank audience last week. When he sought to place Mr. McDonald in a false light by holding him up as the holder of a grazing lease procured through government favoritism, knowing that the lease is owned by one of the strongest conservatives in Canada, Mr. Heron lied, lied flatly and knowingly when he said he did not know that the owners of ninety two and a half per cent of the stock of the Glengarry ranch company are conservatives. Lied in a brutal way word for word in respect of a man of Mr. Heron's supposed fine sensibilities but we would all say any other man lied under the same circum-

stances and we do not know why the term should be softened simply because it is a public man who proves himself capable of falsehood. If he was capable of uttering a lie in the one case, why should we presume he would be incapable of lying in the other?

These, as far as The Frank Paper is aware, are the only instances in which anything bordering on abuse or slander has been uttered against Mr. Heron and if these charges are true, they are neither abusive nor slanderous because if true, they become statements of fact and the statement of a fact cannot by any construction you may put upon it be regarded as either abusive or slanderous. There is not a question that two of these charges are true and there is abundant reason to believe the other is true.

The liberal press has not only not decanted to the making of charges for which there has not been good reason but they have as a very general rule, adhered to a discussion of the merits of the issues involved and we think The Frank Paper will be credited with having been pretty closely to that line. Our argument has been and is that, there being no great principle involved in justifying the electorate in sending an opposition member to Ottawa, a very simple piece of business should prevail in the selection of a member for this district. We have had four years of virtually no government; we have been to all intents and purposes without representation for the reason that Mr. Heron was in the opposition and therefore could not be expected to achieve results, and as we have heretofore insisted that it is distinctly right and proper for the reason that had not the majority of the people of Canada desired that the policies of the liberal party should prevail they would have elected a conservative government. Therefore, if we elected to send a conservative member from this constituency we could not expect that the liberal government would permit his views to become engrafted upon the legislation of parliament, framed with a view to putting into effect the policies of the liberal party which the people had endorsed by an overwhelming majority. If we send Mr. Heron back we shall shortly have repetition of the past four years and be merely four years further away from procuring something material for this district.

On the other hand, if we send Mr. McDonald to Ottawa as our member we may reasonably hope to see enacted an amendment to the land act, extending the operation of the preemption clause to the mountains, we may hope for government assistance in the building of the railroads of which we stand so greatly in need and we may hope for other material and tangible benefits which come to a district only through being represented in the House of Commons by a member affiliated with the government.

Therefore, to the electorate we would say: If you would serve a better sentiment, and Mr. Heron back if you would apply the same business principle to politics that actuates you in your every day life and would like to see this district receive substantial benefits from the federal government, then is but one thing for you to do, that is, cast your ballots for A. B. McDonald next Monday.
